October 18, 2018 News This video will serve as a complete feature in the checklist. I had a lot of fun working on this release. Many mistakes have been crushed and cleared. Everything should work reliably as I checked it extensively. The change covers big new features. The game should work with Oculus Rift controllers, but since I don't have an Oculus Rift, I haven't been able to test it on this platform, if you run into potentially catastrophic errors, send me an email! There is currently no guide to specifically know how to play, but a few things you should know are: Check the checklist in the Shinobu Behavior Pause Menu change depending on her mood to get her to sit on the floor, sit next to her within arm distance and make sure she's HAPPY If you fall off the map, you have to restart the game! Currently, she can only throw objects with her right hand. She won't throw doughnuts! Forgot to mention that with the keyboard, SPACE will redistribute your fingers during your turn in chopsticks There are doughnuts and rubber duckys scattered on the map for you to find and use FOLLOW GAME AT patreon.com/sgthale August 9, 2018 News 1 comment Advanced Unity approach to solving the plausibility of the character.
